

How we can help during the COVID-19 crisis:

HELP STOP THE SPREAD

Facilitate social distancing by enabling shoppers to use their own phone to scan and pay for their shopping from any location in your store. Shoppers and staff no longer need to touch cash or store hardware

MEET CUSTOMER DEMAND

Maximise the efficiency of your store by increasing transaction capacity and liberating staff from the checkouts to meet demand

ENABLE LIMITED PURCHASING

Use our technology to enforce restrictions on the quantities of specific items that each user can purchase

We have actively restructured our resources and developed new systems so we can support retailers that are open during this crisis:

DEPLOY AT RECORD SPEED

Go live in just 2 weeks thanks to streamlined integrations

SIMPLE ONBOARDING

Utilise our PSP to facilitate near real-time onboarding

E-LEARNING PACKAGE

Comprehensive e-learning to remotely train retailer teams
